PART I. GENERAL INFORMATION (continued)

GOVERNING BOARD ACTIONS

Applications for new Individual or Master Works of the District Permits will require District Governing Board action, as will renewals and most modifications of existing Individual or Master Permits. Transfers of existing Individual or Master Permits will not require Governing Board action, unless modifications or renewals are simultaneously involved. General Permits granted by adoption of Rule Chapter 40E-63, F.A.C., Part I, require no further District action.

OTHER PERMITS FROM THIS DISTRICT

If the Best Management Practices Plan submitted as part of this application proposes activities which require new or modified consumptive water use, surface water management, environmental resource, right-of-way, and/or well construction permits from the District, applications for the other permits shall be submitted concurrently with the Works of the District Permit application. Because of the inseparable nature of proposed activities related to a Works of the District Permit and those related to any other District permit, it is extremely unlikely that either this permit application or any other related District permit application will be considered complete until all necessary information for all the related applications has been provided.

The following permit application(s) is/are being submitted concurrently for activities associated with the proposed Best Management Plan(s) (please check any appropriate boxes):

| <input type="checkbox"/> Surface Water Management / ERP | <input type="checkbox"/> Water Use |
| <input type="checkbox"/> Right-of-Way | <input type="checkbox"/> Well Construction |

If you have already applied for or obtained District permits covering any or all of the lands or activities in this present application, please list the District application or permit numbers below.
